THE NEWARK ADVOCATE

NEWARK, OHIO, WEDNESDAY EVENING, JULY 24, 1901.

EWARK'S LEADING PAPER AND ITS NEW EQUIPMENT.

Perfecting Press Installed Today

Expressly for the Advocate—The Largest, Finest and Fastest Press Ever Brought to Newark—Feeds From Endless Roll Turning Out One Hundred Folded Papers Per Minute.

It marks another step in the history of Newark's favorite newspaper, the Advocate, signaling the triumph in its unbroken series of successes. It is abreast of the times and of all competitors both in mechanical equipment and publishing the Advocate more than three years ago introduced the Mergenthaler Linotype machine to Newark, and two years later its competitor followed

the Advocate uses for the first time new Cox Duplex Perfecting Press, by far the largest, finest and fastest press ever introduced in Newark. It is a press which feeds from an endless roll of paper, turning out papers at the rate of 100 per minute, pasted, cut and folded.

The Advocate had the best hat it made to print from single sheet of paper—the Babcock Dispatch—and although it was by far the best press in Newark, it was inadequate to print the Advocate's large evening edition in time for distribution by carriers at a reasonable price. After making a thorough examination of the various makes, the Advocate decided to buy the best—the Duplex—and two months ago an investigation was placed with the manufacturer who built a press especially for the Advocate. The press is now installed in the Advocate's plant, and purchase of the Advocate is ensured with this issue to enlarge the from a six column eight page to a seven column eight page giving the readers eight extra columns or equivalent to more than 1,000 extra reading matter daily.

Its two Linotype machines, the press and Scripps-McRae telephone report, the Advocate, now "city size," is enabled to print a daily paper that compares favorably with news printed in the larger cities. The Advocate will publish news than comes to Newark in afternoon paper, but will fully as heretofore, the local news and will supply its readers with choice miscellany and illustrations.

The paper will be enlarged to 10 cents a week delivered by mail.

The new press is a marvel of design which will do much to advance the Advocate in its career.

The Advocate has been published only since 1820—eighty-one years and up to 1882 was published on the third floor over the store occupied by James Linehan, Main street grocer.

The Advocate owns its own building which with the new addition at fall and with the new machinery makes it the best printing press in any city in Ohio having less than 1,000 inhabitants. The Advocate's story block is 158 feet deep, 40 feet in width, there being 6,820 feet occupied by the different departments—the business office, editor room, press room, store room, library room, book bindery and printing department.

The Advocate has succeeded in establishing itself in the homes of the people in the confidence of the business community by its policy to print all the news and to do it without fear or favor, to be representative of the people and a class or clique. The Advocate has always been found to champion and to deprecate wrong done to the cause of the people and to approve the organization.

Introduction of this press marks

IMPORTANT EVENTS IN THE ADVOCATE'S DEVELOPMENT.

Weekly Advocate established in 1820 by Benj. Briggs.
Advocate moved into its own building in 1882.
Daily Advocate established in 1882, by Newton & Caldwell.
Advocate Printing Company organized in 1883.
Installed Mergenthaler Linotype machines April 1898.
Became a subscriber to Scripps-McRae Telegraph News in 1898.
Installed new fast Webb Perfecting Press July 24, 1901.
Enlarged from six to seven column paper July 24, 1901.

A REAL ROMANCE

Child Stolen by Gypsies Fifty Years Ago Returns to Ohio Expecting to Wed Man Who Proved To Be Her Father.

MOUNT GILEAD, OHIO, July 24.—Fifty years ago, little Lizzie Collinger was playing one evening at her mother's home. As it grew darker, the mother called to her baby, but she got no reply. The little one had disappeared.

Some villagers had seen a canvas covered wagon pass along the road at dark. Gypsies occupied the wagon. When the pursuers attempted to trace the wagon the trail was lost. No news ever came of the missing child. The mother faded and died, begging for her child.

J. H. Collinger still lived on the old farm. He became solitary and sad hearted. His double loss sat heavily upon him.

Collinger inserted an advertisement in a matrimonial paper. Six months ago he got a reply from a Miss Amy Frantz, San Antonio, Texas. He corresponded with her and it was agreed that the two should marry. Collinger sent the woman money to pay her fare. She arrived here a few days ago and the wedding was to have taken place today.

Yesterday the groom-to-be, who is 85 years old, discovered a peculiar birthmark on his prospective bride's arm. It recalled recollections of tiny girl baby that had gone out of his life a half century before. He asked the woman her history. She said that until she was 16 years old she had travelled with gypsies, then made her escape in Texas. She was 54 years old and had earned her living in various ways.

Her aged sweetheart became interested and made further investigation. Other peculiar birthmarks were discovered. A tiny locket that escaped the thieving gypsies was produced and from its golden frame smiled the face of the child's mother and the father's wife.

The wedding was not held, but the ray of sunshine came to the old home of the solitary man.

DANGER OF AN OUTBREAK BY RESTLESS STRIKERS.

POLICE GUARDING CLARK MILL,

But There Is No Disorder—Liability of Injunction Suits Against the Steel Workers in U. S. Court—Attempt to Get Workers from Southern States, but Men are Scarce There.

Pittsburg, Pa., July 24.—Surprise and indignation were expressed this morning among the strikers when it was reported that Inspector Henry Whitehouse, of the East End district

had detailed ten of his officers to report at the Clark mills for duty. According to the information obtained at Keesport there is the danger of an out-

break on the part of the restless strikers, particularly if Amalgamated mem-

bers are discharged from the National

Tube Works. In Weisville there is other affected mill the Clark mill has

LABOR RECORD

Of Colonel Kilbourne Reviewed by Thos. Stagg, General Foreman

Of Kilbourne-Jacobs Manufacturing Co. Always the Friend of the Workingman.

them on all thoughtful citizens. The Democratic position is unassailable and accord with the fundamental principles of American institutions.

Reviewing the field at the starting point of the canvass, the Democrats have everything to encourage them. The platform is a strong presentation that has attracted the attention of all the people of all parties, and is approvingly commented on in every state.

The ticket is strong in capacity, integrity and availability. Colonel Kilbourne is the most popular man personally that has run for governor of Ohio for years, and is sure of a large and possibly decisive vote outside of his party lines.

A HANNA HIRELING.

An Associated Press dispatch from Cleveland says: By a letter to C. A. Groot, prominent in "Bryanite bolt" in Ohio, W. J. Bryan has thrown cold water on the entire movement. In no uncertain language he informs the bolters that they can expect no sympathy from him. While not pleased with the reputation of the Kansas City platform by Ohio Democrats Mr. Bryan emphatically sets his seal of disapproval upon any move calculated to do possible harm to the Democratic ticket as nominated. The letter of Mr. Bryan came as an answer to the letter written to him by Mr. Groot.

But notwithstanding this letter of disapproval from Mr. Bryan, plainly condemning the bolting movement, Groot has not changed his purpose. He says: "We shall go right along with our arrangements for the so-called bolt convention to be held at Columbus on July 31."

This shows unmistakably and without the shadow of a doubt that this creature Groot is simply a Hanna hireling, and the whole purpose is to divide the Democratic party. But the bolt will be a sorry failure. The Ohio Democracy were never more solidly united than in this campaign.

KILBOURNE'S LABOR RECORD.

(Pittsburg Post.)

The Democratic candidate for Governor of Ohio, Colonel James Kilbourne, has a record in relation to his employees in the Kilbourne implement factory at Columbus, which is expected to make him popular with the State's labor vote. According to a sketch of his life printed in the Cincinnati Commercial-Tribune a political opponent, he has never had a strike and has never reduced wages. When the panic of 1893 came it was feared that he might have to cut down the pay of his men, and he went before them and asked if they would accept a reduction in case of necessity. The reply was that they would, but he never made the reduction and kept the mill going throughout. This cost the company something, but its affairs had been so well managed with an eye out for just such an emergency that its financial strength was not seriously impaired.

SUMMIT STATION.

Josiah McIntosh of Union county, Ohio, is visiting his brother, David McIntosh, who is seriously ill with an attack of typhoid fever at his home on East Broadway.

Miss Mabel Young of Forest, Hardin county, O., is here visiting her aunt, Mrs. J. T. Hoopman and family.

John Jones and sister Nellie, were the guests of A. J. Neel and family last Sunday.

Miss Edith Ewing was the guest of her parents last Sunday.

Miss Eva Banner is attending the Pan-American Exposition at Buffalo.

The entertainment given in the M. E. church last Sunday evening under the auspices of the E. L. Society, was a grand success.

Mrs. William Vansecoit and son Arthur of Columbus, were the guests of the former's parents, Mr. and Mrs. Hammer Smith.

Miss Clara Lamp is visiting her sister near Columbus for a few days.

J. S. Axline and family spent Sunday with relatives at E. na.

Sherman Stowell has recovered from his protracted sickness and will soon be able to be around again.

Miss Rebecca Roman of Newark, is here with her aunt, Jane Sampson, who has been in very feeble health for some time, but is considerably improved at this writing.

Mrs. Charles King of Lima, spent a portion of last week with her sister, Mrs. R. J. Allen, at her home on Broadway.

A curious accident happened at the office of the Paris Aerophile recently. During a thunderstorm the lightning striking office, struck the was being cor-

LITICS GETTING LIVELY.

The Republicans are playing a familiar game, which does not indicate that confidence in results of which they boast at the November election. A year ago they bent their energies to organize a bolt of the gold people from the Democrat ticket. Now it is the silver side they are operating on, proclaiming that they will run independent candidates because silver is not proclaimed in the State platform. Every day or two we have dispatches announcing the progress of the movement, and a close scrutiny shows the reports are all fabrications—mere wind work. The Ohio Democracy is thoroughly united on the State platform and candidates, while the Republicans have troubles of their own. The Hanna-Foraker feud is always a lively quantity, and no matter how ostentatious the two senators are in invoking the white-winged angel of peace, there is bitterness and dissensions among their followers that will endanger legislative districts and reduce the vote on their State ticket.

The State issues presented by the Democrats are up-to-date and stand for the home questions about which the people of Ohio of all parties are most concerned. Equal taxation is a fundamental principle of righteous government, and the Democrats propose to enforce, so that the farmer shall not make up the deficit created by favoritism in the taxing way to corporations closely identified with the Republican party.

Intimately connected with this issue and with the labor troubles in Ohio and elsewhere is the trust question. It has lost none of its importance since McKinley and Hanna took the popular side of opposition to the combinations a few years ago. This they have abandoned, and they now acquiesce and promote all the demands of the trusts, whether as regards business or labor. This fact is emphasized by the Hanna family taking the lead in the creation of a powerful coal trust within the last week.

NEWARK'S LEADING PAPER

AND ITS NEW EQUIPMENT

(Continued from page 1.)

point printed, pasted, cut, folded and counted with the neatest precision, ready for delivery to the reader, and at the rate of 5,000 to 7,000 completed papers per hour, as required.

Is Simple in Operation.

The press runs so easily and quietly to the expertness of the operators, that it is called threading the machine. There are two beds on the press which are stationary, and each carries four forms, locked in chases as on other bed presses, except that the arrangement of the forms is different. Four forms are placed side by side on each bed and reaching crossways of the press, the lower bed containing pages 1, 8, 3 and 6 and the upper bed containing pages 2, 7, 4 and 5. All this work consumes less than ten minutes and the press is ready to begin its work. The power being on, a lever is pulled, the machinery of the press moves and the paper from the roll continues on its way through the press, coming back to above the starting

point, printed, pasted, cut, folded and counted with the neatest precision, every part of the press acts in unison and no mistake can occur except through carelessness of the operator. A knowledge of the Cox Duplex press is easily acquired, even by a novice in such matters, and its operation is much easier than any of the old style hand fed printing presses.

In fact, the Cox Duplex press has no equal in newspaper offices with circulation of 15,000 copies or under. Either four, six or eight page papers can be produced at will, the lengths of the rolls being the only factor of change. This adapts the Cox Duplex for use on any size newspapers, as the substitution of one roll of paper for another is only a matter of a few minutes' time and no hard labor in connection therewith.

The press, when it arrived in this city, was loaded in about fifty boxes and counting the screws, etc., was in over 10,000 separate pieces. It weighs about fourteen tons.

MERGENTHALER LINOTYPE MACHINES

Installed in the Advocate Office More Than Three Years Ago--An Illustrated Description of These "Type Setting" Machines and the Rapid Work They Accomplish.

In April, 1898, over three years ago, or more than two years ahead of any other Newark newspaper, the Advocate purchased and installed two Mergenthaler Linotype machines.

Just as it leads today in the installation of a modern web press which prints and folds 6,000 papers an hour, the Advocate led in introducing the wonderful Linotype machines in Newark.

Years of continuous experiment and the expenditure of a million dollars were required for the invention of the Mergenthaler Linotype. The Linotype is pronounced by the London Engineering to be "the most remarkable machine of this century." Its invention and introduction are effecting a revolution in the business of printing newspapers and books which is scarcely second in importance to the wonders wrought by electricity.

It marks the first and only success-

ful Linotype produced finished matter of the highest quality. It permits the face or style to be changed at will. It permits the operator to read and correct his matter as he proceeds, thus avoiding the usual errors in correction.

The first machines were produced in a printing office in 1886 and are still in successful daily use. It was decided however, to follow the development and improvement of the invention as far as possible. The action of the machine was carefully watched for months, the requirements of the printing office studied, and the advice of skilled printers sought in all directions. In the light of the information thus gained the machine was modified, improved, increased in capacity and made adjustable or convertible to meet every demand. New shops were built, new tools and machinery devised and the manufacture inaugurated on the "interchangeable" system, which has

bled side by side, as shown in Fig. 3, they constitute jointly a "form" composed of ordinary type, and adapted to be used in the same manner. After being used the Linotypes are returned to the melting pot to be recast into other lines.

The production of the Linotypes is effected as follows:

The machine contains as its leading members a large number of small brass matrices.

These matrices consist each of a flat

plate, having in its vertical edge a female letter or matrix, and in the upper end a series of teeth. There are a number of matrices for each letter or character represented in the key board.

The machine is organized to select

matrices bearing the required characters, and set them up in a line side by

side, with intervening spaces, in the order in which they are to appear in print as shown in Fig. 6, and thenceafter

THRICE

Divorced Was the Fair Widow, Who
Now Weds Her Attorney of the
Last Suit.

Delaware, O., July 24.—The friends of Olson W. Patrick, a young attorney, were surprised yesterday to hear of his marriage to Mrs. Alice Freeman. Mr. Patrick is one of the prominent young attorneys of this city and is First Lieutenant of Company K, Fourth Ohio National Guard. A romance is connected with his marriage to the fair young widow. Mrs. Patrick hails from Sunbury, Ohio, and this is her fourth matrimonial venture.

Last October she obtained a divorce from Charles Freeman, who was her third husband, and Mr. Patrick, her present spouse, was her attorney in that proceeding. It was during this proceeding that the matrimonial germ took effect, and it is supposed that the revival of her matrimonial trials took root in the sympathetic nature of her attorney.

Mrs. Patrick was formerly Mrs. Freeman, Mrs. Edwards and Mrs. Havens. A divorce stands between her and each of her former husbands. This is Mr. Patrick's first venture on the sea of matrimony.

FRESH AIR

Children From Columbus will be Entertained for a Week Beginning July 30—Reunion at Croton.

Croton, O., July 24—About 35 "fresh air" children from Columbus will be here to be cared for by Hartford people one week from July 30.

The reunion of Attorney J. V. Hildards pupils of the Hartford High school will take place here August 7.

HIGHWATER.

Jesse Gossnell is on the sick list. Miss Dora Holderman was the guest of Ida Anna, Miss Emma Clark.

The harvest will soon be over in this vicinity.

An ice cream supper will be given at the Christian Church.

Mr. and Mrs. L. F. Wenger were the guests of Mr. and Mrs. Lehrer near Utica last Sunday, and attended church at the Fairview church.

PENSION—Theoderick Warthen of St. Louisville, has been granted an increase of pension and will hereafter receive \$8 per month.

Live news on every page.

RULES

That are in Force at Camp Doolittle, Down Near Adams' Mills—Newark Men's Camp.

Camp Doolittle is located near Adams' Mills. The following rules have been unanimously adopted by the Newark party:

1. Don't expectorate on the floor unless convenient. We have a stove, piano, cushioned furniture, table, etc., on which to expectorate.

2. When retiring for the night each person is earnestly requested to leave all valuables such as smoking tobacco, pipes, playing cards, empty bottles, etc., in the hands of the treasurer, as he will not be held responsible for their safe keeping.

3. It shall be unlawful for any member of the camp to smoke other than a clay pipe, and he must at all times refuse cigars tendered him by visitors. This rule must be strictly adhered to and any member violating same shall be fined not less than 5 pins or put on the "dry list" not less than one day, or both, at the discretion of the cook, said person to stand committed to the pie house with a muzzle on until said fines are paid.

4. When thirsty and not drunk, beer will be charged for at the rate of \$2 a bottle. (Boys, if possible keep this one rule—don't run yourself in debt.)

5. Debts, fines, etc., must be paid when due, and if there be no dew, hoo-doo will do.

6. Hours for business: From half-past twelve to thirty minutes to one. Extra sessions may be called when convenient.

Boats and all other property belonging to the camp, when wanted for pleasure, can be had at all times, in preference to those who may want them for business. It is pleasure before business always.

7. Go to bed when you like and get up when you are thrown out.

8. Do up all visitors; devil the cook, steal his stove wool, hide his clothes, smoke his tobacco. Do anything for enjoyment. That's what we are here for.

9. Eat, drink and be merry. If you can't eat, drink some more.

10. The biggest kicker will receive \$100 in gold if we have it when camp breaks. All hustle for the prize.

11. Enjoyment is our motto. The following is our elaborate bill of fare:

Soups.
Turtle (if you catch it) Oxtail (if you are beefing.)
Relishes.

Ginseng, Sumach, Toad Stools.
Fish.

Stories, poles, lines, hooks, bait
sinkers.

Boils.
Carbuncles, Water—dry.
Roasts.

No Gags. Something New.
Beverages.

Hoster's, Born's XX and Consumers.
Miscellaneous.

Everything but what you want. Don't
care.

Committees.
D. J. Crowley—Card and crap department.

Fred Hinger—Beverages.

Freel Wentzler, Len Stelzer—Fish and fish stories.

Al Edwards, Geo. Gorious—Cooks.
Fred Connell, Fritz Walton—Boss canvassers and heavy lifting.

BAPTISTS

Decided Last Night to Meet at Hiawatha Park in Mt. Vernon Again Next Year—Officers.

Mt. Vernon, O., July 24.—The Baptist Young People's Union of Ohio last night decided to hold its next state assembly at Hiawatha Park here, and elected the following officers: President, Rev. E. E. Knapp, Elyria; First Vice President, Rev. Chester F. Ralston, Warren; Second Vice President, George C. Collars, Welton; Third Vice President, C. M. Clute, Toledo; Fourth Vice President, Rev. H. C. Lyman, Delaware; Fifth Vice President, A. W. Davis, Cincinnati; Secretary, C. L. McCallum, Cambridge; Treasurer, H. C. Baldwin, Cleveland; Junior Leader, Miss Anna Wright, Fredericktown; Assembly Directors, three years Dr. O. T. Maynard, Elyria, and L. A. Osborne, Cleveland; two years, Dr. G. W. Lasher, Cincinnati.

Edward B. Williams, son of Major William Williams, of Granville, left on Tuesday for Cincinnati, where he has secured a position with the R. G. Dunn Company. The position is considered a very good one.

It develops that Mrs. Shamon is suffering with temporary insanity. Her condition became quite serious. Mental distress over some recent financial losses is attributed as the cause. Physicians state that a few months' treatment will doubtless restore her to her usual health of mind and body.

A Family Paper.

* * * * *

The fact that the Newark Ad-

vocate is pre-eminently

A FAMILY

NEWSPAPER

and the added fact that it goes in

SWIMMING CLUB

Organized in Newark With Mr. W. A.
Sprague as President—First Swim

Tuesday Night.

Ten well known young men of New-
ark have met and organized the

"Young Men's Swimming Club."

The club is composed of the following gen-
tlemen: Messrs. Will Sprague, the op-
tician; J. J. Brown, J. M. Morrison,

William Bieber, E. S. Miller, "Jummy" Jones,

C. D. Gardner, Charles Kern,

William Holler, A. A. Strawn.

The members of the club took their first

swim Tuesday night in the creek, be-
low Stadden's bridge, east of Newark.

Mr. Sprague has been elected presi-
dent of the club, and he proposes that

the members shall keep clean. To that

end the club will have swimming out-
ings at least three times a week.

Mr. Gardner of the Hotel Doty, says that

all had "Goodhair" shampoo last night.

Gus Kern and Charles Bingmann.

An injunction was granted restraining

the companies from encroaching

on said street about a week ago.

ber of pounds of wool shorn in 1900,
445,798.

Hogs—Total number in 1901, 26,264;
for summer markets, 1901, 7,603.

IF YOU
were to bump your head against a
brick wall you could not feel worse
than does anyone who suffers from
stomach troubles. We have a positive
cure in Dr. Caldwell's Syrup Pepsi. * * *

Each "print" is given attention in
Mr. Caffin's interesting article and all
of the photographs are well printed.
The August Everybody's magazine
will be especially popular with the
Newark people many of whom will
want to obtain copies for the express
purpose of reading Mr. Caffin's article
and seeing Mr. White's pictures.

WHITE PICTURES

TO BE SEEN IN EVERYBODY'S
MAGAZINE.

Mr. Caffin's Fourteen Page Article is
Illustrated by the Work of Mr.
Clarence H. White.

The August issue of Everybody's
Magazine contains a fourteen page
beautifully illustrated article by Chas.
H. Caffin entitled "Photography as a
Fine Art"—the article being illustrat-
ed by the work of Clarence H. White
of this city, and William B. Dyer.

Those of Mr. White's pictures are:
"Telegraph Poles," a scene along the
Ohio canal between Second and Third
street, Newark; portrait of Mrs. H.;
"Self Oblivious"; "The Puritan";
"Evening—Interior"; "What Shall I
Say?"; "Morning"; "The Readers";
"At the Window"; Portrait of Mrs. D.
The article has but two pictures taken
by Mr. Dyer.

Mr. Caffin pays a high tribute to Mr.
White who it seems to be unanimous
agreed, stands at the head of the "Ne-
arly Artistic Photography."

"The most notable instance of Mr.
White's ability to extract beauty from
the homeliest material is the print en-
titled "Telegraph Poles" (the New-
ark canal scene). The scene appears to
be on the banks of which are
poles and irregular buildings separ-
ated by vacant spots, like teeth and
stumps and gaps in an old crone's
jaw; an unsightly, even squalid spot.

At least to the stranger; but to the
man who has seen it under all sorts of
aspects of light and weather, more-
over with an artist's eye alive to the
abstract fascination of mere lines and
masses, of mingled variety of tone,
this most unsuggestive subject has re-
vealed possibilities which have

yielded an original and strikingly
beautiful picture. It is being exhib-
ited at Glasgow and has attracted warm
commendation." * * *

Each "print" is given attention in
Mr. Caffin's interesting article and all
of the photographs are well printed.
The August Everybody's magazine
will be especially popular with the

and seeing Mr. White's pictures.

Kokomo, Ind., Aug. 10, 1899.
Pepsin Syrup Co.

Dear Sirs:—For the past ten years
I was troubled with my stomach.
About four years ago I was taken
down with rheumatism; was not able
to do a day's work for three years.
All medicine seemed of no benefit to me.

A year ago I was advised to take Dr. Caldwell's Syrup Pepsi. I
truly believe I would have died but for
this medicine. My rheumatism is entirely
gone and my stomach is in good
condition. It has saved my life and I
cannot recommend it too highly.

Yours respectfully,
ELWOOD McCracken.

Sold at Johnson's and Hall's drug
stores.

You can afford another straw hat—

OVERCOME

By the Heat on Tuesday and Mr. Wil-
liam Davis Has Not Yet Re-
covered.

A very severe case of heat prostra-
tion occurred in the country, two and
a half miles southwest of Newark, on
the Hebron road, on Tuesday. The
victim was Mr. William Davis, a well
known young farmer, who has been
residing in the same house with his
mother, Mrs. Armstrong, and who is
also a son-in-law of Mr. R. Shire. He
was engaged in harvesting when
he was suddenly overcome by heat,
falling to the ground unconscious. He
was removed to the house at once,
and Dr. E. S. Brown was summoned,
who worked with him until a late
hour Tuesday night, but up to that
time he had not regained consciousness.

The case is a very serious one,
and some fears are entertained of his
recovery.

Real Estate Transfers.

Joseph C. Barney and wife to Mar-
tha B. Starr and Theodore G. Baker,
real estate in Granville, \$2,000.

Wm. H. Miller and Martha E. Miller
to David E. Bender and Adam C. My-
ers, real estate in Elina township,
\$175.

Miss Bessie Reid gave a char-
ity Tuesday evening in honor of
Ruby Franklin before her departure
for the south. Those present were
Hazel Thomas, Amy Franklin, Jessie
King, Ruby Franklin, Bessie Reid,
Ferd Knoell, Alfred Gophin, Harry
Brown, Tom Poos and Turner Lippert.

Wm. Greene and wife to Charles
Richards, real estate in Newark, \$100.
John F. Williams, as executor of the
last will and testament of Jennie Hem-
ler, deceased, to Sarah M. Williams,
real estate in Utica, \$600.

Wm. A. Beall and wife to Jesse E.
Snelling, real estate in Madison town-
ship, \$500 and other considerations.

Frank C. Bartholomew to Mary E.
Jones, real estate in Newark, \$500.

England's rainfall is equal to 3,000
tons on the acre each year.

Sold by all druggists Prepared by
Katherine Chemical Company, St. Louis, Mo.

James King Dead.

James King, the old man, 42 years
old, died at 11 o'clock today at 328
Stony Brook of consumption. Mr.
King left his wife, a widow and three sons.
His funeral will be held Friday morn-
ing at 3 o'clock. Mr. King was a mem-
ber of the A. O. U. W.

Chicago, July 24.—Cattle, 23,000, 10
to 25 cents lower; hogs, 25,000, 5 cents
lower; sheep, 20,000, steady.

A nursing mother will find in Hagee's Cordial of
Cod Liver Oil, with Hypophosphite
vitality for herself, and sus-
tenance for her baby. Hagee's Cordial contains
all the nutritive, alterative,
reconstructive properties of
Cod Liver Oil without

Mercury AND Potash

Everybody knows that Mercury is a dangerous medicine even when administered in very small doses, and few constituents can stand it for any length of time.

Potash produces inflammation of the stomach and bowels, and a dangerous form of dyspepsia and often chronic diarrhea follow its use.

Now, the doctors will tell you if you have Contagious Blood Poison you must take these minerals for two years or longer; first, a course of Mercury, and when your teeth get so sensitive and sore that you can't eat, and the gums have a spongy, unnatural appearance, you are told to stop and a change to Potash is made. When the stomach rebels you are put on Mercury again, and so on ad infinitum, or until the system becomes so thoroughly saturated with these poisonous drugs that the most disgusting sores break out on the body, the bones become diseased, and the muscles and joints are racked with the most torturing pains. Mercury and Potash drive the eruptions and blotches from the skin, but the virus remains in the blood and the reappearance of the old symptoms and the occasional sore mouth show that the poison is still active, and you can never hope to completely eradicate it by this method of treatment.

When I was about twenty-one years of age, or eighteen years ago, I contracted Blood Poison in a bad form, and am satisfied that the rapid progress the disease was making would soon have made me a life-long invalid if I had not taken my system into the influence of S. S. S. The sores, blisters and pimpls gradually disappeared and soon no evidence of the disease was left. I am now thirty-nine years old, and have seen no signs of it during the past eighteen years. S. S. S. does all you claim for it.

W.M. EMERSON, Povsky, Mo.

S. S. S. is the only purely vegetable blood purifier known, and we offer \$1,000 for proof that it contains any mineral ingredient whatever. The general health improves as the specific purges the system of impurities, and as new, rich blood begins to flow in the veins the unsightly sores and other evidences of blood poison disappear; strength returns and you are forever rid of this loathsome disease.

Our Home Treatment Book on Contagious Blood Poison tells you all about the symptoms, different stages, etc., of this disease. We will mail you a copy free.

If you need advice or special directions, write our physicians; it will cost you nothing and may hasten your cure.

Answer to a "Kick."

(Communicated.)

Some anonymous scribbler made an unjust and uncalled-for attack upon the sanitary policeman of this city, through the columns of the American Tribune, last evening and did not have the courage to sign his name to the article. When I called at the American Tribune office this morning and asked for the name of the author of the article, Editor Long refused to give it to me.

Now, I will simply say that in pursuance of my duties as a sworn officer of the law, I inspected Dewey avenue, found it in an unsanitary condition, and ordered it cleaned up, which has been done. The other places mentioned in this anonymous writer's article as being in an unsanitary condition, I will attend to as speedily as possible. It is not a pleasant thing for me, or any one, to discharge the duties of sanitary policeman and I do not particularly enjoy telling any one to clean up their filth. But it is my sworn duty and I am going to do it, in the future, as in the past, without fear or favor, and I am not to be intimidated from doing my duty by any covert threats, such as were contained in the American Tribune of last night. Should Dewey avenue, or any other avenue, need cleaning again, I will see that it is done. My greatest surprise is that a paper claiming so much for itself as the American Tribune, should print an anonymous as a fact, containing a threat against a public officer for doing his sworn duty.

DANIEL F. GORMLEY.

Bubonic Plague.

New York July 24.—There is a case of bubonic plague in port. Stock & Ryde Jane of the German steamship Hopetof is the patient. He has been isolated. The Hopetof came from Col-

LAWYER

(Continued from page 1.)

called.

He detailed his various visits to the Fosburg residence, telling in full of all his investigations of the murder, and giving his reasons for suspecting the defendant. He related the elder Mr. Fosburg's description of the attack upon him, and then told of the finding of a large number of matches of different occasions in the vacant room, in the attack, on the stairs, balcony and some on the first floor.

"At one time," he said, "James brought me some of the matches." The defendant told the witness at the same time that he never had any matches of this kind in the house.

FOURTH

WILL NOT GO TO BUFFALO THIS SUMMER.

Unless More Satisfactory Arrangements Can be Made at Toledo

Boys Will Come to Newark.

The Fourth regiment O. N. G., will not go to Buffalo.

Colonel Potter said Tuesday that he had notified the various captains that it had been found impossible to make the trip. The boat and rail fares could be arranged but satisfactory commissary arrangements could not be made at Buffalo.

Colonel Potter says that he visited the camp of the Sixth regiment at Newark and never in his life did he see regulars, volunteers or national guardsmen have such a correctly laid out and such a clean camp.

Captain Carlos Allen, of this city, Adjutant of the Fourth, today talked over the phone with Colonel Potter, who is connected with the Kilbourne & Jacobs works in regard to the encampment of the regiment.

Colonel Potter says he visited the encampment of the Eighth regiment at Bay View Park, Toledo and that in his judgment it was no place for a military encampment. He said that the board of directors of the Bay View grounds had picked out a certain portion of the grounds for the encampment of his regiment and that he did not like the location that had been picked out, and that if the board refused to let him pick his own location he would not camp there at all. He said that there is from four to seven inches of sand on the location picked out and no rifle range.

Captain Hillis will visit the Bay View site Saturday, and if the Board refuses to let them select their own grounds they will refuse to take the regiment there to camp, and the probable outcome will be that this regiment will come to Newark.

ENGINEERS

Will Come to the Newark Ground to Camp Next Monday—Come from Cleveland.

Next week the First Battalion of Engineers O. N. G., will go into camp at the Permanent Encampment Grounds. Today First Lieutenant D. C. Scofield of Cleveland, together with a detail of six men, arrived from Cleveland on Baltimore and Ohio train No. 4, and are engaged in laying out the camp, and getting everything in preparation. The camp will be in the circle.

The Battalion consists of three companies and headquarters, and will arrive at Newark on B. & O. train No. 4, from the north on Monday morning, in special cars, which will immediately be taken to the Newark Machine Works in the West End, where they will be unloaded. There will number two hundred men in the Battalion, which will be under the command of Major J. R. McQuigg of Cleveland. J. R. McQuigg is major and D. C. Scofield is First Lieutenant and Adjutant.

AT HOME—Mr. and Mrs. James R. Fitzgerald will be "at home" tomorrow and also Friday afternoon and evening at Sunnyside Hall.

FREE SOUP—Charles F. Dean will serve free turpentine soup Saturday night from 7:30 to 11 p.m. at No. 5 South Park Place, A 57th turpentine.

LARGER PAPER—Today's Advocate consists of 56 columns. The Advocate has "grown" eight columns since yesterday, but the price remains the same.

Miss Tullie Ashbrook went to Black Hand to spend the day and take part in the entertainment this evening.

LOST HIS LIFE

Baltimore & Ohio Engineer Frank Huffman Received an Injury In the Newark Yard About Noon Which Shortly Afterwards Resulted in His Death.

A terrible accident occurred in the B. & O. yards this morning in which Frank Huffman, one of the best known engineers in the city, lost his life.

Mr. Huffman came in on an extra from Columbus, running the 968, at 10:40 o'clock. He went to the B. & O. his reports, and then went to the round house office where he made out not. For some reason, which will never be known, he started to return toward the round house. Engine 983, Engineer Robert Doyle, had just come from Zanesville, and was backing down into the yards. Mr. Huffman did not notice the engine bearing down on him, thinking it was on another track, which it was. When he did pay some attention to it, he stepped from one track to another. Engine 983 knocked him down and both legs were terribly mangled, the right being cut off about three inches above the knee, and the

left near the hip. The injured man was picked up and carried to the switch shanty in the west end of the yards near the bridge.

A hurry call was sent to Dr. W. H. Knauss, and Bowers & Bradley's ambulance. When the doctor arrived Mr. Huffman was beyond human aid and at 12 o'clock, 25 minutes after the accident occurred he breathed his last. He never spoke a word nor regained consciousness after he was struck.

The remains were taken to Bowers & Bradley's undertaking establishment and prepared for burial.

The deceased was aged about 44 years and lived at 412 East Main street. A wife and one son, Chester, aged 11 survive.

There have been no funeral arrangements made as yet.

Mr. Huffman was well known as a careful and capable engineer, and his untimely death is deeply deplored.

LIVELY FIGHT

BUT COLUMBUS, GRANVILLE AND NEWARK WINS.

Franklin County Commissioners Bestowed the Franchise Despite the Protests of Competing Line.

Today's State Journal.)

The county commissioners Tuesday added another to the list of interurban electric railway companies which have franchises to operate in Franklin county with Columbus as a terminus.

A franchise was granted to H. R. Young, representing the Columbus, Granville and Newark Traction company, to build a line from the eastern terminus of Cassidy avenue to the boundary line of Licking county.

It was quite a contest for the franchise. It was precipitated by the opposition of a rival company, which owns a franchise over the same road from Granville to the outskirts of Franklin county, along which the Columbus, Granville and Newark Traction company contemplates building its line. The claim was made by the company which was represented at the hearing by Paul Jones, that it would be impossible for the new company to secure a franchise along the road out of Franklin county, because there is not room for different lines along the highway. The commissioners were told that it would only result in complications to grant a franchise which would enable a company to only construct an uncompleted line, and which would make it difficult for the company that was first in the field to obtain a right-of-way into the city because of the occupancy of the desirable route by the Columbus, Granville and Newark Traction company, conditioned in the finding by Prosecutor Taylor that the grant is valid. The successful company is composed of Cleveland capitalists and its general manager, H. R. Young, is a candidate for clerk of the supreme court.

COLLIER'S WEEKLY

SUICIDE

OF THOMAS JONES NEAR VANATTA WEDNESDAY MORNING.

The Old Gentleman Was Found Hanging in His Barn—The Cause Unknown.

It is a theory of many socialistic

economists that there are epidemics of suicide as well as epidemics of disease, and this theory seems to be indicated at least by another sad suicide that has taken place in this country similar in character to that of the late George Handel, and following close upon it.

The news was brought to this city this morning that Mr. Thomas Jones, a well known and excellent

FROM 40 MILES AROUND THEY CAME TO OUR GREAT FACTORY END SALE,

That Opened Yesterday With a Boom.

In spite of the heat our store was packed from top to bottom. NOW WE WANT TO CONTINUE having these crowds all week. ADMIRAL SCHLEY DEMANDS A COURT OF INQUIRY BE CALLED.

WANTS A COMPLETE INVESTIGATION MADE BEFORE BEGINNING ACTION.

He Has Decided to End the Controversy That Has Come Up Again Through Maclay's "History of the Navy"—Secretary Long Will Probably Appoint the Court of Inquiry and Admiral George Dewey, Ramsay, and Benham Have Been Suggested.

REAR ADMIRAL
W. S. SCHLEY.

EDGAR S. MACLAY.

Washington, July 24.—Unable to longer endure the grade that has been leveled at him, Rear Admiral Schley has broken his stoical silence just enough to indicate the course he proposes to follow in cognizance of the attack made upon him in Maclay's naval history.

The Washington Post wired Admiral Schley that in an editorial it insisted he owed it to himself as well as to his friends to begin proceedings against Maclay, the author of the history of the United States navy, to disprove the latter's charge, adding: "Will you do this? Please wire statement."

Admiral Schley sent the following reply: "I believe the first step should be investigation of all matter by a court, then a civil action afterwards. I am preparing to take this course."

The Post, as a result of extensive inquiries based on the admiral's dispatch, says in part: Admiral Schley proposes to ask an investigation at the hands of a naval court of inquiry and then sue Maclay for libel. His action is the sequel to the developments during the past week, when the entire country has been stirred up by the publication of the unexampled abuse poured out upon him in the third volume of E. S. Maclay's history of the United States navy, in which publication Schley is said to have run away "in flight," and is, in addition, denounced as a coward, a cur, and a traitor.

With respect to the matters to be inquired into by the court of inquiry, it might be difficult to state briefly the exact questions which will come before the court, except that Admiral Schley condensed them in a letter written to Senator Hale, chairman of the senate committee on naval affairs, Feb. 18, 1899. This letter divided the criticisms of himself into four heads, as follows: The alleged delay of Cienfuegos, Cuba; the alleged slow progress toward Santiago de Cuba from Cienfuegos; the retrograde movements May 26 and 27 (this refers to the turning of the fleet from Santiago toward Key West); the battle of Santiago and the destruction of Cervera's fleet. It is to be expected that Admiral Schley will specify the grounds of criticism, and that Secretary Long will, in turn, repeat them in his orders assembling the court.

Long to Name the Court.

The appointment of the court is expected to be made by Secretary Long,

Advocate Puzzle Picture.

THE WAITER HAS THE DINNER, BUT WHERE IS THE DINER?

HEAT, WIND AND RAIN COLONY OF NEGROES.

Only Local Interruptions of the Disastrous Drouth.

PROGNOSTICATORS PROMISE NOTHING

Corn Belt Continues Under Parching Temperature—Tornadoes in Texas, Mississippi and Minnesota—Russia suffering From Superheated Temperature Which Is Ruining Crops.

Washington, July 24.—With the exception of scattered thunderstorms, the most important reported to the weather bureau being that at North Platte, Neb., the drouth and intense heat continued throughout the states of the corn belt. Temperatures again averaged over 100 degrees in that area, making the thirty-sixth consecutive day in which the thermometer went to 90 degrees and higher. Some of the maximum temperatures reported were: Atlanta, 86; Buffalo, 84; Cincinnati, 94; Davenport, la., 104; Denver, 90; Des Moines, 103; Indianapolis, 96; Jacksonville, 90; Kansas City, 102; Little Rock, 102; Memphis, 104; New York, 90; North Platte, 92; Omaha, 102; Pittsburgh, 88; St. Louis, 106; St. Paul, 109; Springfield, Ills., 100; Springfield, Mo., 106. At Washington the maximum was 90.

Generally speaking the temperatures in the superheated area were not so high as the preceding day, but such rainfalls as may have occurred were due entirely to local changes and not to any general differences in atmosphere conditions. There is no prospect of any relief from prevailing conditions in the central valleys and the middle west, and Forecaster Franklinfield repeats his forecast of continued warm weather, with light and scattered thunderstorms for that section of the country.

Russia Roasting.

Washington, July 24.—A St. Petersburg dispatch to the United States department of agriculture dated July 21 states that a temperature of 103 degrees was reached that day in Odessa and that phenomenal heat was prevalent in the districts of Minusinsk and Krasnoyarsk almost the entire growth of cereals has perished as the result of a two-months' drouth, and that in the trans-Siberian country the condition of crops was almost equally bad. Also that seven of the 12 districts comprising the provinces of Perm, in the eastern part of European Russia, the condition of affairs is almost as deplorable as in the Siberian districts named. It is further stated that in the provinces of the Volga region the peasants are already practically destitute, having sold cattle and horses they could not feed and consumed nearly their whole scanty stocks of food and seed grain.

Boulders Blown Down.

New Ulm, Minn., July 24.—A tornado passed a mile north of here. Several buildings were blown down and August Woodman and William Thompkins, carpenters, were severely injured by the falling in of the roof of a barn where they sought shelter. Charles Steubens' farm buildings were blown from their foundations. Much corn and grain was beaten down by a heavy rain. Half an hour before the storm the government thermometer showed 105, the highest point reached this season, and the record since 1865.

Tornado at Vicksburg.

Vicksburg, Miss., July 24.—Hundreds of shade trees were prostrated, many roofs lifted and the walls of half a dozen buildings caved in by a tornado which passed over the southern section of the city. The storm was accompanied by severe thunder and lightning and a downpour of rain. The wind reached a velocity of 60 miles an hour. There were no casualties reported.

Waterspout in Texas.

Dallas, Tex., July 24.—A dispatch from Cisco reports a waterspout 20 miles west of there which washed away 10 miles of track of the Texas Central railroad between Lueders and Albany and between Albany and Moore. An engine went through a bridge killing Engineer Thomas Boone.

REFORM.

Many of the firemen received injuries.

The damage is estimated at \$200,000.

Hearing Rumors Again.

London, July 24.—"We hear rumors," says The Daily News, "that negotiations with a view to peace in South Africa are proceeding in London."

Prevent Baldness

And Cleanse the Scalp of Crusts, Scales, and Dandruff by Shampoo with

And light dressings with CUTICURA, purest of eminent skin cures. This treatment at once stops falling hair, removes crusts, scales, and dandruff, soothes irritated, itching surfaces, stimulates the hair follicles, supplies the roots with nourishment, and makes the hair grow upon a sweet, wholesome, healthy scalp when all else fails.

Millions Use

CUTICURA SOAP, assisted by CUTICURA OINTMENT, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff and the stopping of falling hair, for softening, whitening, and soothed red, rough, and sore heads, for baby rashes, itchings, and chafings, and for all the purposes of the toilet, bath, and toilet of the modern woman. Use CUTICURA Soap in the form of baths for annoying irritations, inflammations, and chafings; or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative, antiseptic purposes which readily suggest themselves to women especially mothers. CUTICURA SOAP combines in ONE SOAP at ONE PRICE, the best skin and complexion soap, and the best toilet and baby soap in the world.
